

14 000 m² total area | **319** working stations | **9** floors

Fully furnished, ready to move in

Office space in the Allschwil Life-Science-Cluster

Building G06 is part of the SONUVO Campus in the Bachgraben area of Allschwil and offers modern office space for companies in the life sciences sector. The spaces are suitable for a variety of uses – from research and engineering teams to consulting firms and data-driven life sciences companies.

Thanks to the building's flexible structure, multiple companies can be accommodated within the building. The floors can be separated from one another and leased individually. With 50 or more employees, you can become part of a life sciences campus.

Possible uses

The office spaces are particularly well-suited for:

- Life Sciences
- Consulting and Professional Services
- Engineering and Technical Development
- Data Analysis and Digital Life Sciences Applications
- Regulatory Affairs and Business Development

Thanks to their location within the Basel Life Sciences Cluster, companies benefit from proximity to international pharmaceutical and biotech firms, as well as universities and research institutions.
